

Tathagat Verma

Master's in Computer Science at Stanford University

📧 tathagatv.github.io | [in tathagatv](#) | [verma_tathagat](#) | [tathagatv](#) | ✉ tathagatswagverma@gmail.com

EDUCATION

Stanford University, Stanford, USA

Sep 2022 - May 2024 (expected)

Master of Science in Computer Science, Specialization - Artificial Intelligence

GPA - **4.0/4.0**

Indian Institute of Technology Bombay, Mumbai, India

Jul 2018 - Dec 2021

Bachelor of Technology in Computer Science and Engineering with Honors

CPI - **9.64/10**

SCHOLASTIC ACHIEVEMENTS

- Secured **All India Rank 53** in **JEE Advanced** out of 200,000 candidates 2018
- Secured **All India Rank 34** in **JEE Main** out of 1.2 million candidates 2018
- Recipient of the **Quadeye Excellence Scholarship**, awarded on the basis of academic achievements 2021
- Amongst top **30** in India selected for the **International Astronomy Olympiad Selection Camp** 2018
- Amongst top **35** in India selected for the **International Mathematical Olympiad Training Camp** 2017
- Amongst top 300 students selected for the **Indian National Physics and Chemistry Olympiads** 2018

PUBLICATIONS

1. Title: **VarScene: A Deep Generative Model for Realistic Scene Graph Synthesis** [\[paper\]](#)
Authors: **Tathagat Verma**, Abir De, Yateesh Agrawal, Vishwa Vinay, Soumen Chakrabarti
Conference: International Conference on Machine Learning (ICML) 2022

RESEARCH EXPERIENCE

Object Importance Classification and Natural Language Explanation Generation Autumn 2022

Guides: [Prof. Mykel Kochenderfer](#), [Jiachen Li](#) | Research Assistantship

SISL, Stanford University

- Developed a deep learning model for importance classification and explanation generation in autonomous driving
- Utilized **CNN**, **Graph Neural Networks** and **attention** based **GRU** for image feature extraction, learning inter-object relationships and natural language generation respectively for the joint task in **PyTorch**

VarScene: A Deep Generative Model for Realistic Scene Graph Synthesis

Autumn 2021

Guides: [Prof. Soumen Chakrabarti](#), [Prof. Abir De](#) | R&D Project

InfoLab, IIT Bombay

- Developed a deep generative model for novel scene graph synthesis using **VAE** and **Graph Neural Networks**
- Designed a goal oriented decoder for minimizing the maximum mean discrepancy between graph distributions
- Developed code in **PyTorch** and used the Visual Genome and Visual Relationship Detection datasets
- Significantly outperformed baselines on the Fréchet Inception Distances (**FID**), Inception Scores (**IS**) and achieved better results on the Shortest Path, Weisfeller Lehman and Neighborhood Subgraph Pairwise Distance kernels

Deep Learning for Medical Image Quality Enhancement

Spring 2021, Autumn 2021

Guide: [Prof. Suyash Awate](#) | R&D Project, Bachelor's Thesis Project

IIT Bombay

- Enhanced the quality of MRI images with sub-sampling and Gaussian noise in the frequency domain and PET images with Poisson noise in the sinogram domain under the weakly-supervised regime
- Trained models using the **RED-CNN** and **UNet** architectures with Bayesian learning in **PyTorch**
- Utilized intermediate VGG-16 layers for **style based losses** and Fourier and Wavelet transform loss functions

INTERNSHIPS

Student Venture Partner

Summer 2022

[Venture Highway LLP](#) | Guides: [Aviral Bhatnagar](#), [Akul Jindal](#)

Bengaluru, India

- Gained exposure to sourcing and evaluating **seed stage startups** and interacted with many founders

Image Functionality in the Whiteboard Android Application

Summer 2021

[Microsoft India \(R&D\) Pvt. Ltd.](#) | Software Engineer Intern

Noida, India

- Integrated **Microsoft Lens SDK** into Whiteboard Android, to support image and OCR tools provided by Lens
- Worked in **Java Android** backend, building the bridge to send images from native Android to the web application
- Developed code in **React** for the web application, making the UI component for triggering image workflow

Attribute Value Extraction from Product Descriptions

Summer 2020

[Coupa Software India Pvt. Ltd.](#) | Data Science Intern

Pune, India

- Developed unsupervised and semi-supervised methods for extracting attribute values from product descriptions
- Implemented an **RNN** model for sequence tagging using **CRF**, **BiLSTM** and attention mechanisms
- Automated taxonomy creation by clustering on co-occurrence graphs using the **Chinese Whispers Algorithm**

Business Monitoring and Alerting Systems

Summer 2019

[Delta Exchange](#) | Software Engineer Intern

Mumbai, India

- Made real time predictions for prices of multiple Crypto Derivative contracts by implementing **ARIMA** model
- Developed a dashboard using **Django** to monitor Business Performances, now being used on a daily basis
- Used **MySQL** database along with **APIs** and **WebSockets** of various exchanges for obtaining real time data

TECHNICAL PROJECTS

Blockchain Simulation and Applications

Autumn 2021

Guide: [Prof. Vinay Ribeiro](#) | *Blockchains, Cryptocurrencies and Smart Contracts*

Course Project

- Implemented a peer-to-peer cryptocurrency network simulation in **C++** following the **Bitcoin** protocols
- Simulated selfish and stubborn mining attacks, analyzing the effects of hash power and network connectivity
- Developed a decentralized payment application on top of **Ethereum** in Solidity, utilizing smart contracts

Adversarial Attacks and Robust Deep Learning Models

Spring 2021

Guide: [Prof. Sunita Sarawagi](#) | *Advanced Machine Learning*

Course Project

- Implemented the L_2 attack, L_∞ attack with first and second order norms and the L_0 Pointwise attack
- Trained 3 robust models using the methods; Analysis by Synthesis, Stability training and Adversarial training
- Developed code in **Keras**, doing a comparative study using the MNIST dataset on all models & across all attacks

Foreshadow Attack and its Variants

Spring 2021

Guide: [Prof. Bernard Menezes](#) | *Advanced Network Security and Cryptography*

Course Project

- Studied the **Foreshadow** attack and its impact on **Intel SGX** and **VM** systems due to speculative execution
- Simulated the proof-of-concept attack on **Linux** kernel with **x86** processor in the absence of Intel TSX

Route Optimization Algorithm

Winter 2019

Inter IIT Technical Meet

IIT Roorkee

- Proposed solution for the Vehicle Scheduling Problem in the setting of buses, winning **gold** medal among 20 teams
- Reduced the problem to multiple instances of the Travelling Salesman Problem(**TSP**) using k -means clustering
- Generated routes while taking real time traffic into account using **Google Maps APIs** in Python

TECHNICAL SKILLS

Programming	C++, Python, C, Java, Bash, Solidity, Racket, SQL, MATLAB
Packages	PyTorch, TensorFlow, Keras, NLTK, SciPy, Pandas, Statsmodels, NumPy
Software	Git, L ^A T _E X, AutoCAD, SOLIDWORKS, Android Studio
Web Development	HTML, CSS, JavaScript, Django, Bootstrap

LEADERSHIP POSITIONS

Institute Student Mentor

Jun 2021 - Jun 2022

Student Mentorship Program

IIT Bombay

- Mentoring **12 freshmen**, helping them adjust to the institute environment, focusing on their holistic development
- Amongst 130 out of over 300 applicants selected through a rigorous procedure of interviews and peer reviews

Senior Department Academic Mentor

Jun 2020 - May 2022

Computer Science and Engineering Department

IIT Bombay

- Mentoring **6 sophomores** of CSE department to assist them in navigating department specific curriculum
- Working in a supportive, facilitative and developmental role for the student community in general as a mentor

Teaching Assistant

- **Natural Language Processing with Deep Learning** | [Webpage](#) *Stanford University, Jan 2023 - Mar 2023*
- **Artificial Intelligence and Machine Learning** | [Prof. Ganesh R](#) *IIT Bombay, Jul 2021 - Nov 2021*
- **Data Structures and Algorithms** | [Prof. Sharat C](#) *IIT Bombay, Jan 2021 - May 2021*
- **Logic for Computer Science** | [Prof. Krishna S](#) *IIT Bombay, Jul 2020 - Nov 2020*

Responsible for conducting doubt sessions, preparing problem sets, programming labs and grading examinations

Organiser in Corporate Relations

Nov 2018 - Mar 2019

Entrepreneurship Cell

IIT Bombay

- Responsible for speaker handling and handling overall logistics in multiple events
- Part of the execution team for **The Panel Discussion** at Entrepreneurship Summit, 2019

EXTRACURRICULAR

- Won **gold** medal in Route Optimization Competition at the **Inter IIT Technical Meet, IIT Roorkee** *2019*
- Represented IIT Bombay at the **34th Inter IIT Aquatics Meet, IIT Guwahati** *2018*
- Awarded **second** position in **CoDecode** (coding competition) organized by Techfest, IIT Bombay *2020*
- Covered a distance of **23.2 km** swimming continuously for **12 hours** at Swimathon, IIT Bombay *2019*
- Awarded Certificate of Merit for **winning** the Inter Department Football Tournament IIT Bombay *2019*
- Awarded Diploma Certificate for competing in the **Gothia Football Cup, Gothenburg, Sweden** *2011*
- Phonathon: Pitched to 50 alumni the events conducted by Student Alumni Relations Cell, IIT Bombay *2019*
